

Coconut Coir products

Coir products are renewal resource and its harvest does not cause environmental damage and it does not contain disease organisms that can be transmitted to plants. When it does biodegrade, coir adds organic matter to the soil. Some coir even contains beneficial fungi that help control disease organisms that could infect plants. Coir Products are also known as biodegradable products, eco friendly products, sapling products, alternative plastic products, green products, earthen products, natural products, go green products, coconut products

Coconut Coir Hangers

Coconut Coir Hanger will directly replace your plastic or artificial hangers at your office lounge or at hotel reception or at your balcony or bedroom.

Coconut coir hanger can be used as interior and exterior décor by raising real plants in it.

These hangers give a special attraction when sunlight or bulb light directly falls on it. Also coir do not give direct sunlight to the plant, it acts as a stabilizer to the plant. As these hangers are made from Coir, there is no need to water the plants daily, coir will absorb water so it will not let the plant dry. Coir nourishes to the plant growth. It will be a right choice for your walls. Also best fit as Corporate gift or Marriage gift or return gift.

Coconut Coir Pots

Coconut Coir pot will directly replace your plastic or clay or cement pots in your garden. Coconut coir pot can be used as interior and exterior décor by raising real plants in it. Once the plant is grown in the coir pot, the coir pot along with the plant can be directly put into the soil, so that the plant can rise from the ground. As coir is made from natural resource it will biodegrade in the ground.

Also coir do not give direct sunlight to the plant, it acts as a stabilizer to the plant. As these pots are made from Coir, there is no need to water the plants daily, coir will absorb water so it will not let the plant dry. Coir nourishes to the plant growth. It will be a perfect gift for your plants. Also best fit as Corporate gift or Marriage gift or return gift.
